Earth Song Ranch has its Colostrum collected from specially selected, USDA inspected, controlled, healthy Grade "A" dairy herds, from the first milking. It is pooled, concentrated and then prepared using a proprietary process which preserves the powerful immune factors, some of which include Immunoglobulin's, Lactoferrin, Leukocytes, Cytokines and Interferon. It is packaged under a license issued by the State of California Department of Health Services, Food & Drug Division, adhering to strict state standards and regulations.

Earth Song Ranch's Colostrum is 100% pure Colostrum with no fillers, whey or other delivery system ingredients added to dilute it.

All of the Earth Song Ranch's Colostrum liquid is tested to guarantee top quality and activity using Enzyme Linked Immunosorbent Assay (ELISA). The Immuno-globulin's activity is measured using the latest Radial ImmunoDifusion (RID) technique. A complete nutritional analysis is also performed and available through a licensed independent laboratory.

Earth Song Ranch supplies only pure, efficacious Colostrum powder, reflecting the integrity of our company. Unlike competitor blends of Colostrum, ours provides excellent quality without over-extracting and diminishing the naturally occurring immune and growth factors.

Colostrum is a nutritional supplement, not a drug. Earth Song Ranch is not permitted to make health claims about its Colostrum products. However, there are thousands of research papers and clinical trials, which have been performed. If you would like some help locating a research paper on a particular subject, please feel free to contact us.
